Banjarmasin, South Kalimantan, Indonesia

## PROFESSIONAL SUMMARY

Backend Engineer with 3+ years of experience designing and maintaining government information systems and digitizing historical records. Specializes in Node.js, TypeScript, and PHP with relational databases (PostgreSQL, MySQL). Currently employed at the Banjarmasin City Department of Culture, Youth, Sports, and Tourism (Disbudporapar), building systems that directly support public administration services. Proven track record delivering reliable, maintainable solutions in both government and private-sector environments.

## WORK EXPERIENCE

### Professional Staff

2024 – Present

*Disbudporapar Kota Banjarmasin (Department of Culture, Youth, Sports & Tourism)*

- Manage administrative information systems for cultural heritage and historical records across the department.
- Lead digitization of paper-based historical archives, improving accessibility and long-term preservation of public records.
- Coordinate departmental data workflows and maintain internal information systems used institution-wide.
- Support public administration operations through the implementation and upkeep of digital solutions.

### Programming Intern

2022

*LPFK — Loka Pengamanan Fasilitas Kesehatan (Medical Device Safety Center)*

- Conducted debugging and quality assurance on medical device software systems.
- Performed structured analysis of test data to identify and document software defects.
- Contributed to research on software modification for medical calibration equipment.
- Gained hands-on experience in safety-critical software environments.

### Programming Intern

2020

*UD. Borneo Ban*

- Developed a full-featured Point-of-Sale (POS) and sales management application using Java and PHP.
- Designed and managed relational databases (MySQL) for inventory tracking, sales reporting, and customer management.
- Delivered a working system deployed in-house, enabling day-to-day business operations without manual bookkeeping.

## EDUCATION

### S.Kom — Bachelor of Computer Science

Graduated 2026

*Universitas Lambung Mangkurat (ULM), Banjarmasin, South Kalimantan*
